

Homing your animals.

Ash, Jack and Ruby race across the Arctic tundra of northern Greenland to save the mammoths. The tundra is the mammoths' natural habitat, *but* it is full of dangers.

Where would you home your - *de-extinct* animals?

- Tropical forest or jungle
- Desert
- Arctic / Antarctica - *cold regions*
- The ocean
- Somewhere else...

What dangers may be in your chosen habitat?

MAMMOTH RIDER
