

Saving the planet.

In *Mammoth Rider* the mammoths have been cloned to help with the efforts to slow global warming and help **save many species** across the world from **going extinct**.

What small things could ***you*** do to **help with conservation** and to the save planet?

- Pick up litter
- Recycle
- Use less single use plastic
- Switch of lights when you leave the room
- Let you grass grow
- *What else can you think of ?*

Saving the world starts with small things. ***Every little thing helps.*** Lots of small things add up to making a **big difference!**

MAMMOTH RIDER
